Profile Summary

Passionate pre-final year B.E. Computer Engineering student with a strong foundation in computer science principles and hands-on experience in programming languages and software development methodologies. Proficient in frontend and backend development, Flutter, Firebase services, and database management. Eager to apply academic knowledge and practical skills to contribute to innovative projects, while continuously learning and growing in a professional environment. Committed to pursuing excellence and making meaningful contributions to the ever-evolving world of technology. I am seeking to join a dynamic team focused on leveraging technology to create innovative solutions and enhance user experiences.
